

# UNDERSTANDING THE BENEFITS OFFERED

by Sabinet's Single Topic Customised Monitoring Services

Sabinet's Customised Monitoring Services offer our users a wealth of options when it comes to creating and customising important searches. The 'Single Topic' option is an even more refined form of this service. As a whole CMS provides users with:

#### **Advance warning on your chosen topics**

Keeping you abreast of any changes to policy and legislation in your particular areas of interest

#### **Avoidance of fake news**

As always, Sabinet ensures its sources are up to date and checked by our expert, skilled writers

#### **Multiple sources strengthen searches**

Pulling from multiple sources means a more coherent understanding can be gained

#### **Short summaries**

Drafted by subject specialists, these summaries aim to consolidate information, providing readers with an intro to relevant news or updates

#### **Sent straight to your inbox**

Attached as e-mails, relevant search results are sent directly to your inbox either immediately or once per week

Delving deeper, our users can subscribe to a 'Single Topic' and, by doing so, can customise the service even further, resulting in incredibly granular results. As topics of interest in South Africa fluctuate in terms of their relevancy, Sabinet focuses attention on these and, as a result, creates CMS Single Topic offerings. As discussion on specific subjects ramps up: leading to changing definitions, shifting legislation, and new government ruling on the subject, Sabinet aims to keep its users up to date with what specifically is going on.

# UNDERSTANDING THE BENEFITS OFFERED

by Sabinet's Single Topic Customised Monitoring Services

Sharing all the benefits of CMS mentioned above,  
Single Topic also allows users to:

#### Track a Topic

...following the ongoing discussions, policy and legislative process as it unfolds

#### Monitor Topic-specific Aspects

...like changing legislations, and ramifications for specific sectors

#### Remain Relevant

...with up-to-date articles and summaries

#### Keep Compliant

...by understanding what new developments might affect specific sectors

#### Break Through the Bad Buzz

...with its rigorous and exhaustive monitoring, Sabinet's CMS circumvents any and all fake news 'noise'

#### Avoid Costly Legal Research

...with CMS acting as a one-stop information source, there's no need to expend staff energy monitoring changes in subject matter

#### and Save Some Time

...with an early-warning style approach to information-sharing, CMS users save time because they're not searching or monitoring themselves and, because they've got relevant information delivered to them, they're better prepared to avoid time-consuming 'headaches' in the future

# UNDERSTANDING THE BENEFITS OFFERED

by Sabinet's Single Topic Customised Monitoring Services

The current selection of Single Topics available exist as a function of their current 'heat'. Our ever-weather topics include:

Finance

Mining

Engineering

## Our latest additions include:

COVID-19 - due to the ever-shifting news, legislations and challenges the pandemic presents.

Cannabis - which is presently undergoing an interest resurgence due to Government publishing a draft bill regarding its legality.
