### Some of the benefits of our service:

- ▼ *What's New* is an index of bills in process. All bills are listed numerically which are currently before parliament. You can access a profile, history and status of each bill.
- ▼ *Index Archive*. All bills are listed alphabetically which have been tabled before parliament in the current year. It includes those still in process as well as those completed - with their act number and *Government Gazette* reference.
- ▼ List of recent acts and gazettes cross-referenced to corresponding bills.
- ▼ *Parliamentary Documents*. Access to draft bills, committee reports, submissions to parliament, speeches by ministers, and various policy movers and shakers as well as other documents sourced from parliament.
- ▼ List of bills passed but not enacted, list of acts published but not in operation and draft bills.
- ▼ *Bill Profile and History*. Graphical illustration of the complete legislative history from the first discussions in parliament to becoming an act - giving you quick view of where a bill is in the process.
- ▼ All parliamentary documents and draft bills related to a specific bill are linked - no need to do a separate search on the parliamentary documents.
