

Sabinet Discover

The Discover Dashboard Difference.

The **Discover Dashboard** is a value-added **subscription** option for subscribers to information services available on Sabinet Discover.

Discover Dashboard Benefits

This feature allows you to **manage and action on your alerts**, which are normally sent by email, in a dashboard format on a daily basis. You can set it as your default MyDiscover landing page, navigate to documents on **Sabinet Discover** directly, and save or make notes on documents.

Dashboard Alerts

Refine your research experience according to your needs on Sabinet Discover. Set in the myDiscover environment, users can:

- **Set alerts for any product** on Sabinet Discover to populate the Dashboard Alerts
- **Keep documents** from the alerts for up to **90 days** (default is 14 days).
- **Save and add notes** to documents from the Dashboard Alerts.
- Add documents to **myBriefcase** from both the Dashboard Alerts and Saved Documents.
- Pin your most used **What's New shortcuts** above the Dashboard Alerts.

Calendar

The Calendar offers a **comprehensive view of all upcoming legislative events** gathered by Sabinet, eliminating the need to navigate to specific products and documents. This feature ensures that users stay informed and never miss important legislative events.

- **Search for specific events** on the Calendar.
- **Navigate directly to the document** on Sabinet Discover from the Calendar.
- **Set up reminders** for any event to be emailed on a chosen date.
- **Save reminders** under "Event Reminders" for future reference, even if the email is missed.
- **Reschedule reminders for events** to send again or on a different date.
